COMMERCIAL AND FINANCIAL

Wheat Was Easier Despite a Decrease in the Visible Supply.

TRADE WAS NOT BRISK BUT STEADY

Corn Market Was Without Special Features of Its Own, but it Followed in a Lazy Way the Course of Wheat.

CHICAGO, Jan. 14.-Wheat was easier, despite a decrease in the visible supply, and closed %c lower for May, influenced by liberal selling. May corn closed 4c lower. oats 14c lower and provisions finished

with but little change, Wheat started easy in tone at 4c decline. Trade was not brisk, but the preponderance orders from cutside was to sell, and the local crowd, observing that, were in a hurry to square themselves with the apparent drift of outside opinion. The news of the day, with the exception of an increase of 1.125,000 bu. in the quantity on ocean passage for the United Kingdom and the continent, was bullish. May, which opened at from 58%c to 58%c, declined in the course of an hour to from 5814c to 5814c, and showed but little inclination to react until after the publication of the visible supply statement, which, being construed builishly caused a recovery to from 58%c to 58%c which was, however, followed by another

caused a recovery to from 18% to 18%, which was, however, followed by another decline. The visible supply decreased 1,271,000 bu., which was about as generally looked for by the conservative bulls.

Outside of the regular market news was a dispatch copied from the New York World stating that owing to scorching winds in Australia, wheat was being cut for hay. Receipts at primary markets amounted to 259,000 bu., asgainst 263,000 bu. on Monday last and 49,000 bu. a year ago. Chicago got 39 cars, Minneapolis 221 and Duluth 32. The last we named places fell short 80 cars of their receipts at the corresponding time last year. Clearances from the Atlantic ports and New Orleans amounted in wheat and flour to 240,000 bu., of which 68,000 bu. was wheat. The foreign markets were firm. London quoted wheat and flour 6d per quarter and 3d per sack respectively higher. Paris was a shade higher for wheat and flour, and Berlin reported an advance of from ½ to ¾ mark. Millers in Ontario were reported as bidding 7le f. o. b. cars at Buffalo for some Manitoba wheat, which is held in bond there, originally intended for shipment to Europe. The market showed a tendency toward recovery near the end, May closing at 58%.

The corn market was without special features of its own. It followed in a lazy way the course of wheat, but its fluctuations were confined within a narrower limit. The cut in rail rates to the east continued to becommented upon hopefully by these who desire to see prices advance. Receipts at Chicago were 219 cars, of which three only were of the contract grade. For tomorrow the estimated receipts are 410 cars. May opened at 48½c, and 48½c was paid for a limited quantity. After that the market ruled weak as a rule, and, having declined to 48c, it was with difficulty raised ½c over that again, but only to go still lower near the close, 47½c being quoted within ten minutes of the end, May closing at 48c.

In oats business wes quiet. Early in the day but little inquiry existed, which, with the influence of corn, could be c

closed.

Provisions were very dull, but steady. Hog receipts exceeded the estimate, but prices at the yards were higher, and that aidel the speculative market. Fluctuations were narrow and there was little trading either way. May pork closed 2½c higher and lard and ribs unchanged.

The leading futures ranged as follows:

STOCKS AND BONDS.

Inr Market-NEW YORK, Jan. 14,-The week opened Stock exchange with an irregular market, and the tone of speculation was un day. There was very heavy trading in Chi cago Gas, the transactions in which were one-third of the total sales. At the opening free offerings of the stock were made and a sharp break was made in the early dealings of 2% per cent, ex-dividend of 1½ per cent. The selling was credited to inside interests in the main, but the bears put out some fresh lines, and reports of complications in the annual meeting called for today in Chicago were rendered necessary by an adjournment without electing directors. At the lower figures there was some covering of short contracts, which caused a recovery of 1 per cent, of which % per cent was lost in the final dealings, making the loss on the day 2% per cent. Sugar came next in point of activity, but moved in very much harrower limits. Opening at an advance of ½ per cent, the shares quickly declined 1½ per cent on a report that the annual report had been made up and was an unfavorable statement. The depression was but temporary, and on good buying, induced by the lower figures, an improvement of ½ per cent was recorded, with a reaction of ½ per cent on Saturday's last sales. Distilling was among the most firmly held stocks traded in, selling up ½ per cent in the morning and losing only % per cent of the gain. Of the grangers St. Paul alone showed any activity, but there was moderate buying of the other shares of the group on Chicago orders. They fluctuated within a range of from ½ to % per cent, St. Paul closing in unchanged on the day and Rock Island ¼ per cent and Burlington and Northwestern ½ per cent higher. The trading Interest on the list was light, and the movement of prices was, with some exceptions, unimportant, but the general trend was toward higher figures, and in most cases the closing figures showed gains on the day.

The bond market was duil, but in the main firm. The aggregate of sales was \$83,300.

The Evening Post's London cablegram: The settlement today disclosed a ing free offerings of the stock were made and a sharp break was made in the early Evening Post's London cablegram

The Evening Post's London cablegram:
The settlement today disclosed a fair account, except in Americans. Money was plentiful and contangoes on Americans about 2 per cent. The markets were good and healthy, with consols still soaring. Speculation was active. Americans, after duliness, spurted up after hours, closing good, but it is a mere reflection of your side. Flatness in India exchange caused disquietude, although trade is slow and low values are the principal causes, Rumors that Japan will adopt the gold standard are not believed in the best quarters, but there is enough uncertainty to depress silver and exchange. following were the closing quotations The on the leading stocks of the New York ex-

Week Opened in Securities with an Irregu- Receipts and Requests About on a Parity and Trading Fairly Brisk.

settled throughout the greater part of the BEEF TRADERS ARE STILL FASTIDIOUS

Early Clearance Effected but No Very High Prices Paid-Spread in Hogs More Marked but the Average is a 19,000 head. Consequently while the early feeling was one of comparative steadiness, there was a sensibly weaker feeling soon after the opening. Little Better.

MONDAY, Jan. 14. The receipts today were 1,510 cattle, 2,520 hogs and 106 sheep, as against 2,771 cattle, 2,443 hogs and 248 sheep on Monday of last week. Thus far this year there has been a loss in the receipts of 5,504 head of cattle and 4,842 sheep, and a gain of 26,298 hogs as compared with the corresponding period of last year. CATTLE—There were fifty-seven

cars of cattle in the yards today. Among the offerings were some very desirable beef steers, though nothing equal to the top cattle on Saturday. There was some shipping demand, in addition to the requirements of the local packers, and about steady prices were maintained. Some 1,200 and 1,200-lb, cattle, which were the best in the yards, brought \$4.25. Handy little cattle command the most attention from the buyers.

There was a fair supply of cow stuff in the yards and about the usual demand. The market was fully steady at Saturday's prices, There were not far from twenty loads on sale and the most of them changed hands. Quite a string of cows, weighing cars of cattle in the yards today. Among hands. Quite a string of cows, weighing right around 900 lbs., brought, \$3. A large proportion of the cows, however, sold at \$1.75 to \$2.75. Really desirable veal calves are bringing good prices.

The market on stockers and feeders did not show much change. There was very little outside demand, but the speculators cleaned up the yards in pretty good shape. The general impression appears to be that the demand from the distillers is the main support of the market and is the real cause of the market being as firm as it is at present. Representative sales:

HOGS—There were only thirty-two fresh loads
reported in the yards this morning, not enough
to make much of a test of the market. The first
blids were lower than Saturday's market, but as
the later reports came in from Calcago, indicathigher. The hogs were all some higher. The hogs were all some cleared at an early hour. The bulk of the sales were at from \$4 to \$4.25, as against from \$4 to \$4.25 on Saturday and from \$4.10 to \$4.15 on last Monday. While there were no really choice heavy hogs here, the top was \$1\subseteq heavy hogs here.

WHERE HE INSPECTS THE INSPECTION Bulk of the Receipts Was Finally Worked

Discussing the Importation of Meats, He Says that He Will Make the American Product Sought After the Whole World Over.

reduction varying from 5c to 15c per 100 lbs. It Hon. J. Sterling Morton, secretary of agriculture, spent the forenoon yesterday in South Omaha, looking over the microscopic vailing prices for cows were from \$215 to \$3.15 department of the bureau of animal industry. The secretary was found by The Bee re porter in the office of Dr. Don C. Ayer, chief

> sented to a short interview. In reply to the question as to the object of his visit to the packing houses, the secre-

nspector, and although very busy, he con-

"I am here with Dr. Devoe, veterinarian of the bureau of animal industry, for the purpose of inspecting inspection at the abattoirs of South Omaha, Singularly enough, just at this time the search lights of Germany and France are turned upon the methods of governmental meat inspection in the United States, and I am credibly informed by a party of high standing, socially and politically, that certain foreign governments are exercising a sort of espionage over all the principal abattoirs of the United States. The object of this is, undoubtedly, to find, if possible, some dereliction of duty on the part of the United States meat inspectors. St. Louis Live Stock Market.

ST. LOUIS, Jan. 11.—CATTLE—Receipts, 5,200 head; shipments, 599 head. Market 10215c tower generally: native steers, 1,100 and 1,300 lbs., \$1,75 614.09; lights, \$2,5003.25; cows, \$1,8502.75; helfers, \$2,2503.15; Texas steers, no representative sales; fed cows, \$2,5002.55;
HOGS—Receipts, 5,100 head; shipments, 2,800 head. Market 50/10c higher; best heavy, \$4,50; butcher weights, \$1,30074.40; good light, \$4,200 4,30; p.gs, common and rough, \$1,7502.10.

SHEEP—Receipts and shipments, none. Market strong; only southwestern on sale, at \$2,25. Foreigners may desire to make out a case against the sanitary condition of American cattle and from that they premise to deduce the unhealthfulness and unedibility of canned and otherwise cured American beef and other meats. DIAGNOSIS WAS TO HURT TRADE.

"But during the year 1894 the United States Department of Agriculture inspected more than 12,000,000 head of cattle. date not one of all these millions has been demonstrated to be otherwise than in a sound Sent.
STERLING EXCHANGE—Firm, with actual business in bankers' bills at \$1.88\%\pi 1.89 for demand and at \$1.8\%\pi 4.89. Fosted rates, \$1.88\%\pi 4.81, commercial bills, \$4.86\%\pi 4.87. SILVER CERTHIFICATES—58\%\pi bid. GOVERNMENT BONDS—Firm; state bonds, inactive; railroad bonds, firm. sanitary condition. It is true, however, that within the last four months, from a certain foreign port a case of contagious pieuropneumonia in an American fat steer was proclaimed. But the department demanded at once by cablegram the number of the tag upon that animal, and the transmission of a part of the lungs. The tag came, the animal was traced by its number to a farm where it was born and raised in the Blue Grass regions of Kentucky. The animal had what veterinarians term transit pneumonia, i. e., cold taken on the Atlantic voyage. vestigation proved there never had been a case of pleuro-pneumonia nor any other communicable or contagious disease during the last ten years. The European diagnosis seemed to have been made to order, for the surpose of furnishing a sanitary reason for the exclusion of American live stock. The truth is there has not been a case of pleuropneumonia among the cattle herds of the American republic during the last three years. Nor was the sanitary condition of American herds and flocks ever more satis-

factory than it is today."

"As to microscopic inspection," continued Mr. Morton, "it will be continued only for those houses which have a German or French demand for export hog products. During the last fiscal year 15,000,000 more pounds of pork were microscopically inspected than dur-ing any preceding year. All that inspection ing any preceding year. All that inspection was made for the purpose of satisfying the demands in that regard of German and French consumers. And while it cost the people of the United States a considerable sum to thus cater to those two foreign markets, the amount expended for microtwo foreign scopic inspection was \$78,000 less than during the preceding year.
"The number of cattle inspected for that fiscal year more than doubled that of any

previous year. The expense of cattle in-spection was reduced from 4% cents per head spection was reduced from 4% cents per head to 1% cents per head.

"This last year we inspected more than 12,000,000 head of cattle, and the highest number ever inspected during any previous year was less than 5,000,000.

BOUND TO MAKE IT GOOD "It is my ambition," said the secretary, "and my duty to make United States meat inspection so thorough, so efficient and just, that not a single animal, or a single pound of meat unfit for human food can possibly be passed onto the interstate or export markets. The stamp or tag of the United States in-spection should be, either at home or abroad, as satisfactory a guaranty of edibility as the certificate of the assayer of the United States mint is to the fineness and weight of an ingot of gold. It is, therefore, the intention of the United States Agricultural department give its certification of cattle, swine, all the products thereof of the highest money-purchasing power that those confmodities can be endowed with anywhere in the civilized, meat-eating world.

PUZZLING CUSTOMS OFFICERS.

Coffee Market.

NEW YORK, Jan. 14.—The coffee market opened firm at 56220 points advance on higher foreign markets. The first call sales were 5,000 bags, and sales during the forenoon were about 10,000 bags, including: March at \$13.90911.95; May, \$13.90913.35; September, \$13.90914.00; October, \$13.25; November, \$14; local room trading was rather moderate.

RIO DE JANEIRO, Jan. 14.—Firm; No. 7, Rio, RIO D Two Ships with Cargoes of War Materials on Board.

JACKSONVILLE, Fla., Jan. 14.-Early this morning there steamed up the bay a small ship that turned out to be the Nor-wegian ship Paracoa, that sailed from Boston about a week ago. This is the myster ious unknown vessel associated with the yacht La Genda, detained by customs officers here yesterday and suspected because of rifles and cutlasses being aboard. The Paracoa is a swift iron steamer of 380 tons register. Captain Clausen says his instructions from Mr. Borden, the charter party, had been to proceed from Boston to Fernandina and load with 390 tons of merchandise for West Indian ports. He had received 1455 sterling in advance for his services. It transpired today that Borden received the day before Christmas, via the Mallory line, 159 large and small cases, supposed to contain arms and ammunition. All that can be found of the 150 cases are the few on the La Genda, now in charge of United States deputy marshals. The river will probably be dragged tomorrow for the missing cases. The La Genda was seized under the neutrality law. yacht La Genda, detained by customs officers HAMBURG, Jan. 14.—Barely steady; prices 14
6014 pfg higher; sales, 19,000 bages.
